

RE: REACH Product Information

Concerning the Product/s (trade name/s):

Ronfalin, Ronfalin A, Ronfalin C, Percom, Perlex, Pertal, Styralin, Vitamide

The above products are Preparations per Article 3(13) or Article 3(2)

1. Compliance Information

Plastic materials, produced by Perrite, are formulated preparations produced from substances supplied to us by the manufactures, distributors or importing bodies and according to REACH regulation preparations do not need to be registered separately provided that the individual components of the preparation are pre-registered/ registered.

As a downstream user of substances and preparations we shall fulfil our legal obligations and have already commenced the preparatory activities. We shall continue communications within the chain, particularly with our suppliers to ensure that they, and the raw materials they provide, are compliant with REACH regulation. Perrite will not use a supplier which is not compliant with REACH regulation.

We shall make every effort to inform our customers in good time if individual products can no longer be supplied in the future. However, at present, and with respect to our complete raw material inventory, our suppliers have confirmed their intention to register the products they supply to Perrite.

Furthermore, all REACH relevant substances contained in the products listed above and all their colour variations will be registered, if not by our up-stream suppliers then by our business legal entity, Vita Thermoplastic Compounds Ltd.

2. DECLARATION – Substances of Very High Concern

With reference to the Candidate list for substances of very high concern (svhc), published by the European Chemicals Agency (ECHA)

http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp Perrite (UK) can confirm in the absence of tests and according to our upstream supplier information that our product/s listed on page 1 and all their colour variations, according to their recipe formulations, either do not contain any of these substances or do not exceed legislative thresholds in concentrations above 0.1%, and are as such not used or intentionally added.

Although the above mentioned substances as such are not intentionally added may not exclude the presence of negligible traces due to impurities in the components supplied by external parties further up from Perrite's direct supply chain.

This declaration applies to the material as it leaves its production facilities and does not cover any additive, pigment, masterbatch, recyclate, etc..., subsequently included by the converter.

This declaration replaces all previous ones relating to this subject.

In the name of Perrite UK (A Division of Vita Thermoplastic Compounds Ltd)

Mark Fletcher

Laboratory Manager / REACH Manager
